

The Gainesville Zero Waste News

Requesting a Zero Waste Presentation

Do you feel confused by the Zero Waste ordinances? Do you have a business within the City limits and want to ensure you're in compliance?

If you answered yes to either of these, **head to our website, and book a Zero Waste presentation today!**

Our dedicated staff can accommodate your schedule and tailor their presentations to your exact needs.

Here are some examples of what you can expect:

- **Multifamily Property owners or managers** – Request a presentation for your staff or tenants to better understand the Road to Zero Waste, including proper recycling methods, the Lease Transition Plan, the Indoor Recycle Storage Container requirement, and more.
- **Food service establishment owners or managers** – Request a presentation to learn about the single-use plastic straw & accessory ban, food waste collection and diversion, or general waste reduction tips.
- **Municipal departments** – As the Zero Waste ordinances help our businesses divert precious materials from the landfill, we have the chance to lead by example. The Zero Waste team can help you set up proper office recycling stations, food waste diversion stations, and provide training for better use of all our cost saving and waste reducing services.
- **Civic groups or school clubs** – Here's your chance to get your group together for a fun and memorable educational experience. Learn about composting, recycling, and other waste diversion methods.

The Zero Waste team is here to help everyone – residents, business owners, and our municipal colleagues – as we all move toward the goal of the City of Gainesville reaching Zero Waste by 2040! We want to help equip your team with the tools they need to implement more sustainable actions in their day to day operations.

For more information and to request a presentation, please visit gainesvillefl.gov/ZeroWaste.
