## Get Your Apartment Recycling On – Free Educational Signs!

As a part of the ongoing Zero Waste Initiative by the City of Gainesville, the Solid Waste Division is now providing **complimentary recycling signs to Apartment and Condominium properties within the city limits.** These newly printed signs aim to assist in educating tenants about accepted and non-accepted materials for recycling at collection stations. When posted, these signs will also meet the ordinance requirement for recycling educational signs in common areas where recyclables are collected.

**These oversized signs measure 22 inches by 14 inches and are pre-printed with universal recycling messages suitable for both single-stream and dual-stream collection systems.** The text on the signs is in both English and Spanish. Property staff will be responsible for posting the signs at each recycling collection station on their property.

**If you are a property manager or owner interested in obtaining a set of these free signs, please contact the Solid Waste Division's zero waste staff at [waste@gainesvillefl.gov](mailto:waste@gainesvillefl.gov) or call 352-334-2330.** Act now, as these signs are only available while supplies last.
